

InDesign –Export PDF

FP Ads without bleed should be built to the specified FP ad size. Bleed ads should be built to trim size and the bleed area extended 1/8” outside of the trim size. See Documentation PDF on Full Page Bleed/Safe Type Area Guide

1. Download the Amos Press InDesign PDF Presets:
Amos InDesign BLEED.joboptions.zip
Amos InDesign NON BLEED.joboptions.zip
2. Unzip these 2 files
3. To Import into InDesign, go to File/Adobe PDF Presets/Define...

4. Click on **Load...**

5. Navigate to the Amos PDF presets that were downloaded (above).
6. To save a PDF, go to **File/Export** and choose the correct PDF setting.
